

“TEACHING MATH IN EVERYDAY LIFE” WORKSHOP

SATURDAY, MARCH 14TH, 10AM-12PM

Parents play an important role in a child’s education, including math!

Learn:

- Playful ways to introduce math to your children
- The use of everyday objects and situations to learn math
- To create a positive association with math
- About basic math concepts
- To point out different ways of solving the same problem
- To encourage curiosity and more!

For more information or to register call 416.421.8997
