Weighing Associate (Night Shift)

Toronto, ON (North York)

As a Weighing Associate for the night/overnight shift, you will ensure daily weighing of items for sale and for production is conducted and completed in a safe, high quality, and timely manner. The Weighing Associate will foster a working environment that is clean and tidy, fair, positive, and driven to continuously improve. Tentative start for end of September, early October.

Key Responsibilities

- Carefully and accurately weigh out chemicals as required and fill vials for customer or internal orders
- Inspect, verify, and confirm order accuracy and correct product labeling
- Use proper dispensing procedures to minimize material loss or cross contamination
- Prioritize chemical products to be weighed according to First in First Out (FIFO)
- Accurately record all weighed chemicals and report any loss to the FG Team Lead
- Maintain proper organization of storage areas and update the inventory database as required

Job Requirements

- Well organized, detail and deadline oriented
- Knowledge using a balance and weighing small quantities
- Must be able to stand and sitting for a long period of time
- Must be able to lift up to 25 kg/55 lbs
- Spend varying amounts of time on walk-in freezers, as many chemicals are stored therein
- Working closely with chemical compounds including ones that are potentially toxic or classified as Dangerous Goods and be treated accordingly
- Must be available for an evening/overnight shift; shift may change to a morning/afternoon shift depending on business needs
- Completed Criminal Background Check
