PROGRAM SUMMARY

Learning Celebration for Cohort - a day to celebrate the completion of in-class construction programming and provide certification to clients .

PEWP - Power Elevating Work Platform - A safety certification training in which the use of a scissor lift is taught.

Corner Project Demolition - the demolition of the course project to learn methods of safely deconstructing sites to support construction work.

Culture-Link Cybersecurity Information Session - Information session where CultureLink will share more about their 7 week cybersecurity certification program.

On Going - Welding - learning basic welding safety in a welding shop and virtual welding in person, all throughout month of December

TRADES CONNECT PROGRAM

The Trades Connect Program is a TNO - The Neighbourhood Organization program which provides information, resources, and wrap around supports to individuals seeking to secure fulfilling careers. We have 3 main pathways in Information Technology, Industrial Transportation, and Construction Trades.

Our Cohorts will participate in various hands on projects supporting them in gaining foundational trades knowledge!

If you would like to learn more about us we welcome you to join one of our information sessions or email us to set up a time to speak at: trades@tno-toronto.org.

Funded by:
 Immigration, Refugees and Citizenship Canada
